Performance to 31 March 2023

	Six months	<u>1 year</u>	<u>3 years</u>	<u>5 years</u>
IFSL Church House ESK Global Equity Fund	9.32%	(0.50)%	49.96%	63.72%
IA Global sector	6.31%	(2.84)%	47.70%	50.48%

External Source of Economic Data: Morningstar (B Income - quoted price to quoted price, net income reinvested).

The performance figures above are based on quoted prices and will, therefore, differ from the performance in the Comparative Table.

Capital at risk. Past performance is not a reliable indicator of future performance; the value of your investment and any income from it can go down as well as up. Performance returns are based on the net asset value with distributable income reinvested and take account of all ongoing charges, but not entry charges (if applicable). The past performance of this unit class is calculated in sterling.

Investment commentary

Over the final calendar quarter of 2022, the Fund felt the negative impact of the recovery in Sterling, though this was a positive for the year. We did not make any changes to the portfolio over the quarter but there was plenty of movement at the underlying stock level.

Nidec, the Japanese manufacturer of miniature electric motors, fell back with concerns over the industrial sector though Paccar, the US trucks manufacturer was a notable gainer. The pharmaceutical holdings were mixed with weakness in Roche Holding and their Japanese affiliate, Chugai Pharmaceutical, but good gains for Gilead Sciences after an encouraging profit forecast, and for Stryker. Most of the poor returns for the quarter came from the big tech stocks: Alphabet, Amazon and Apple. Though, again, the sector was mixed, and we saw strong gains for Mastercard and Oracle. The financials in the portfolio put in a strong performance all round, led by a 30% gain for Sumitomo Mitsui as Japanese rates finally showed some signs of increasing, and a 26% gain for Everest RE in a strong period for the re-insurers.

There was strong performance from the consumer discretionary holdings (except for Amazon), LVMH particularly along with Hermès and McDonald's. Mastercard became the fourth largest holding in the portfolio while Alphabet slipped down the list. With a recovery underway in equity markets, the holdings in staple goods companies were some of the quietest: Nestlé were barely changed, as were L'Oréal, while Heineken slipped after warning that they see signs of weakness in demand and Remy Cointreau drifted, worrying about Chinese demand for brandy (which should now change).

The first calendar quarter of 2023 saw the emergence of a 'banking crisis' starting in California with Silicon Valley Bank and spreading to Europe with the demise of Credit Suisse. The Fund does not have exposure to any secondary/regional banks in the US or Europe. We hold Morgan Stanley in America, Sumitomo Mitsui Financial Group (SMFG) and Nomura Holdings in Japan. Morgan Stanley and SMFG were flat over the quarter, both had been up quite markedly, Nomura Holdings is a new position that we are in the process of building.

The principal detractors from performance over the quarter were two of our major pharmaceutical holdings, Johnson & Johnson (J&J) and Roche Holding. J&J sank after a federal appeal court ruled that it may not use corporate bankruptcy laws to speed up the progress of lawsuits against its baby powder, while Roche profits missed expectations, continuing a run of poor form from them. Both stocks are looking lowly rated and good long-term value at current levels. Nordson reported (uncharacteristically) dull Q1 figures along with a reduction in their forecasts for the year and their stock fell 10% over the period. In the opposite direction, Shin-Etsu Chemical jumped 27% as they reported strong figures and raised their full-year guidance.

Two of the smaller Pharmaceutical holdings, Lonza Group and Straumann Holdings, both gained circa. 20% after encouraging earnings reports, while our biggest holding here, Stryker Corp, gained 14% after saying that they expect to see good momentum in 2023. Staple Goods saw a 20% gain for L'Oréal after good figures, while luxury led the way in Consumer Discretionary with strong gains for Hermès and LVMH; we have reduced the former a shade following its recent performance, Amazon.com and Sony Group were also strong. Technology saw gains across the board, Ansys was a feature with a 30% gain after robust results and strong full-year forecast.

AUTHORISED INVESTMENT MANAGER'S REPORT

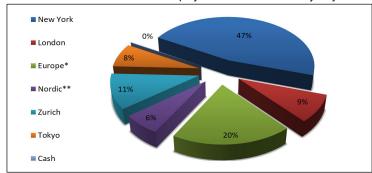

for the six month period ended 31 March 2023

Top 15 holdings as at 31 March 2023:

Microsoft	4.50%
LVMH Moët Hennessy Louis Vuitton	4.32%
Alphabet 'A'	3.58%
Mastercard 'A'	3.32%
Apple	3.29%
Stryker	3.29%
L'Oréal	3.11%
Johnson & Johnson	2.96%
RELX	2.87%
Oracle	2.69%
Nestlé	2.69%
Hermès International	2.55%
Investor	2.51%
Morgan Stanley	2.51%
Unilever	2.48%

AUTHORISED STATUS

IFSL Church House Esk Global Equity Fund (the Fund) is an authorised unit trust scheme within the meaning of the Financial Services and Markets Act 2000 and is a UCITS scheme operating under the Collective Investment Schemes Sourcebook (COLL) as issued by the Financial Conduct Authority.

GENERAL INFORMATION

Investment objective

The investment objective of the Fund is to provide capital growth over the long term (at least five years).

Investment policy

The Fund is actively managed. At least 80% of the Fund's assets are invested directly in shares of companies worldwide. The focus of the Fund is on larger capitalisation companies, which the Investment Manager defines as those with a minimum market capitalisation of \$5bn at the time of purchase, which must be listed on recognised exchanges in developed markets. No specific geographic limitations are imposed, but a maximum of 15% is invested in companies incorporated in the UK. Up to 20% of the Fund may be invested in other assets: smaller companies (capitalisation less than \$5bn), fixed interest securities (including floating rate notes, index linked or convertible fixed interest securities), money market instruments and cash.

Benchmark

Unitholders may compare the performance of the Fund against the IA Global sector.

Comparison of the Fund's performance against this benchmark will give unitholders an indication of how the Fund is performing against other similar funds in this peer group sector. The Authorised Fund Manager (AFM) has selected this comparator benchmark as the AFM believes it best reflects the asset allocation of the Fund.

The benchmark is not a target for the Fund, nor is the Fund constrained by the benchmark.

Rights and terms attaching to each unit class

A unit of each class represents a proportional entitlement to the assets of the Fund. The allocation of income and taxation and the rights of each unit in the event the Fund is wound up are on the same proportional basis.

Changes in prospectus

There have been no significant changes since the last annual report.

Up to date Key Investor Information Documents, Prospectus and Long Reports and Financial Statements for any fund within the AFM's range, can be requested by the investor at any time.

DIRECTORS' STATEMENT

This report has been prepared in accordance with the requirements of the Collective Investment Schemes Sourcebook as issued and amended by the Financial Conduct Authority.

^A The return after charges is calculated using the underlying investments bid prices.

Operating charges are the same as the ongoing charges and are the total expenses paid by each unit class in the period. Direct transaction costs are the total charges for the period, included in the purchase and sale of investments in the portfolio of the Fund. These amounts are expressed as a percentage of the average net asset value over the period and the average units in issue for the pence per unit figures.

^B These figures have been annualised.

SYNTHETIC RISK AND REWARD INDICATOR

Lower risk						Higher risk
						
Typically lower rew	vards				Typic	cally higher rewards
1	2	3	4	5	6	7

This indicator aims to give you a measure of the price movement of the Fund based on past data. It uses historic returns over the last five years. If five years' data is not available, simulated data based on a representative portfolio are used.

The Fund has been measured as 5 because its investments have experienced moderate to high volatility in the past. During the period the synthetic risk and reward indicator has remained unchanged.

NOTES TO THE INTERIM FINANCIAL STATEMENTS

for the six month period ended 31 March 2023

Basis for preparation

The interim financial statements have been prepared in compliance with Financial Reporting Standard (FRS) 102 and in accordance with the Statement of Recommended Practice (SORP) for UK Authorised Funds issued by the Investment Management Association (renamed to the Investment Association) in May 2014, and amended in June 2017.

The interim financial statements are prepared in Sterling, which is the functional currency of the Fund. Monetary amounts in these financial statements are rounded to the nearest pound.

The interim financial statements have been prepared on the historical cost convention, modified to include the revaluation of investments and certain financial instruments at fair value.

Accounting policies

The accounting policies applied are consistent with those of the annual financial statements for the year ended 30 September 2022 and are described in those annual financial statements.

The investments of the Fund have been valued at their fair value at 12 noon on 31 March 2023.
